Mohan Garden, New Delhi, Delhi, 110059

SUMMARY

Data Analyst and Data Engineer skilled in SQL, Snowflake, ADF, and SSMS. Experienced in software development, documentation, and team collaboration for improving systems.

TECHNICAL SKILL

• SSMS •ETL •Azure Data Factory •Data Warehouse •Power BI •PostgreSQL •Snowflake

EXPERIENCE - (1 Year)

- Data Engineer using Snowflake, ADF, and SQL Server to optimize and manage data pipelines, ensuring accuracy and reducing processing time.
- Migrated data and server objects (tables, stored procedures, views, jobs) to a new SQL Server data warehouse and handled all related documents.

PROJECT

Data Engineer | [Manages and updates payments for corporate clients] | FEB 2024 – Present

- Improved data pipelines using Snowflake, Azure Data Factory (ADF), and SQL Server Management Studio.
- Ensured data accuracy by fixing pipeline issues.
- Reduced data processing time through optimizations.
- Managed data flow and databases.
- Collaborated with teams to enhance system efficiency and data reliability.

Data Analyst| [Tech modules designed for travel management] | AUG 2023 – JAN 2024

- I was doing migration from an old data warehouse to a new SQL Server data warehouse.
- This migration involves migrations of all the server objects like tables, stored procedures, views, and job.
- I also handled documentation for migrating objects.

CERTIFICATIONS

- Course on Computer Concepts (CCC), NIELIT.

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University | Master's Degree in Computer Application | Aug 2021 – Aug 2023

Chaudhary Charan Singh University, Meerut | Bachelor's Degree in Computer Application | Aug 2018 – Aug 2021
